

# INDOOR ACTIVE VIDEO WALL DISPLAYS - TAMILNADU STATE JUDICIAL ACADEMY (TNSJA)

Judicial Training Infrastructure at Chennai, Madurai & Coimbatore

## OVERVIEW

Tamil Nadu State Judicial Academy is the official judicial training body for judges and judicial officers in Tamil Nadu. To enhance training delivery, presentations, and official events, the academy required high-resolution LED video wall systems at its campuses in **Chennai, Madurai, and Coimbatore**.

The objective was to deploy uniform, professional-grade visualization infrastructure capable of supporting continuous usage with high clarity and reliability across all locations.

## FROM MULTI-CITY DELIVERY TO A UNIFIED UPGRADE !!

### The Challenge:

To deploy a **high-resolution LED video wall solution** across three Judicial Academy campuses in **Chennai, Madurai, and Coimbatore** with consistent quality and government compliance. The task required **coordinated supply, site readiness, installation, controller integration, and commissioning** under **ELCOT procurement norms**, while ensuring uniform brightness, clarity, and reliability for training and official programs.

## OBJECTIVES

### ➤ ENHANCE TRAINING EFFECTIVENESS

Enable high-clarity visual display for judicial training sessions and official programs.

### ➤ ENSURE CONSISTENT VISUAL EXPERIENCE ACROSS LOCATIONS

Deliver standardized visualization infrastructure at all academy campuses.

### ➤ MEET GOVERNMENT PROCUREMENT STANDARDS

Execute supply and commissioning strictly as per ELCOT specifications.

## EXCELLENCE IN EVERY SOLUTION

The deployment was executed with precision and compliance:

1. Indoor LED video wall systems installed at Chennai, Madurai, and Coimbatore
2. High-resolution P1.2 mm pixel pitch for sharp and uniform visuals
3. Professional video wall controllers supporting multiple input sources
4. Systems designed for extended daily operation
5. Delivered with comprehensive onsite warranty support

## THE IMPACT

The LED video wall deployments significantly improved presentation quality and content visibility at all three judicial academy locations. The upgraded infrastructure enhanced training effectiveness, supported large-format content display, and provided a reliable visual platform for judicial education and official programs. It also acts as a dynamic platform for organising various events and programs held at the venue.

## CONCLUSION

The Tamil Nadu State Judicial Academy LED Video Wall project demonstrates Mentor Infocomm's ability to deliver multi-location, government-compliant visualization solutions. Through consistent execution across Chennai, Madurai, and Coimbatore, the project established a unified and future-ready presentation infrastructure supporting judicial training excellence.
